increased audience attention

Phoenixes RD7 – 360° Video Display

Phoenixes 360° displays are multifunctional multimedia columns to inform, entertain and advertise. At every audio-visual product presentation the eye-catching »Phoenixes RD7« will absorb significantly more viewers than

any flat screen. Our timeless design combines monolithic simplicity with sophisticated multimedia items. Individual branding will customize »Phoenixes RD7« according to your distinct Corporate Design.

Phoenixes RD7

360° Video Display

»Phoenixes RD7« 360° displays feature high quality materials, superb video quality and full surround sound. Our reflection reducing coating both minimalises mirror images and effects deep black levels. You can display the seamless 360° videos specifically designed by Phoenixes Creative Studio or use any digital image or video format 2 × 180° or 3 × 120°.

Gain center stage for your message transforming it into a breathtaking »Phoenixes RD7« 360° presentation:

seamless 360° videos and panoramas
commercials and video clips
text and image based information
realtime 360° broadcast

The captivating novel approach of a 360° presentation features considerable advantages:

all around view
absorbed audience
state-of-the-art multimedia technology
timeless design
stunning video quality
impressive motion acuity
full surround sound
noiseless operation mode
individual labelling
easy transportation
